Sure. I'll be here the rest of this week.

Ray Leissner

Thanks Scott. Sometime soon can you can here...

Thanks Scott. Sometime soon can you can here and give me a lesson on the elements of your check list?

Your list might be a useful tool in conveying our concerns over the modeling to the State(s). Before I'd propose such an action however I'd like to be better educated over the elements. I suspect others here share this thought as well.

Hi Ray,

I thought you might want to see the criteria I used to evaluate the completeness of the current El Paso model. Its nothing official exactly, just my impression of the status of the model pending any other information they can provide, if they chose to do so.

FYI - I have **tentatively reserved** on Bill Honker's calendar the time slot of 1:00 - 1:45 pm on December 7th for the purpose of having a conference call with our TCEQ counterparts and their division level management. This is at the urgent request of TCEQ staff who are being pushed by EPWU to move the matter forward. I am waiting to hear back from them that the proposed time slot is OK. Please keep that time slot in reserve. Thanks
